

Boughton and Dunkirk Neighbourhood Plan

Background document **BD1** - Neighbourhood plan questionnaire and results.

The neighbourhood plan questionnaire was delivered to every household in both Parishes.

There was an extensive advertising campaign with posters on both village council notice boards, shops, private houses, and many businesses.

As there was no understanding locally about Neighbourhood Plans this questionnaire had been preceded with a leaflet drop to every house, which showed the designated area and explained about Neighbourhood Plans.

There was a great deal of anticipation built up as the posters changed every week (all 6 attached). The final poster explained about the plan, the questionnaire, the closing date and mentioned prizes.

There were 1200 copies distributed. Each could be returned by Freepost envelope provided, or at five locations in the villages. There was an excellent 21% response.

Analysis of responses to each individual question is shown below.

In summary, question 20 asked "What two issues should we concentrate on?" the highest number of responses named Parking in the Street (40); Reduce congestion/improve traffic flow in The Street (22) Repair potholes/improve road maintenance (24); Cleaner pavements/reduce litter and dog fouling (17); stop over-development of new housing (12); provide more affordable housing (10.)
