

Boughton and Dunkirk Neighbourhood Plan

Background document **BD1** - Neighbourhood plan questionnaire and results.

Question 9

Which of the following would you wish to see, as an improvement of village facilities, and please tick the ones you are likely to use, indicating frequency. Please tick all that apply.

Would like to see	Never	Rarely	Sometimes	Often
-------------------	-------	--------	-----------	-------

Sports/gym facility (all ages). Specify below	115	53	22	59	35
Education/learning centre (adult)	99	46	37	66	32
Nursery/pre-school playgroups	75	98	12	11	14
After school club for older (secondary) pupils	110	89	10	14	12
Youth clubs	110	89	9	20	20
More adult daytime activity groups	103	40	23	55	21

It should be noted that there were 42 'No' answers. Some were from the website, where 'No' was an option, some wrote 'None'.

They are not relevant to the survey. The interpretation of this question is very difficult. Some people ticked 'would like to see', as a village facility and then ticked 'Never' as to frequency, but it's still a valid need for the parishes. This is our own fault; the question tried to harvest too much information and should have been split into two or more questions. It does not obviate the validity, just makes it harder to interpret.
