

Boughton & Dunkirk Neighbourhood Plan

YOUR COMMUNITY – YOUR FUTURE

Q15 Do you want the Plan to consider the potential benefits of additional tourism to our communities?

YES	116	NO	83	NOT SURE	79
------------	-----	-----------	----	-----------------	----

Please add your comments

Yes

You obviously know the answer. YES – if more parking

Better road signage

More parking etc. Should be free parking

OK if more parking. High Street very difficult to pass sometimes

Yes, if more parking. The Street is a wonderful assemblage of many styles of architecture, guided tours would draw in tourists as also benefit local pubs and shops

More parking is needed in the centre of Boughton; this is needed for visitor and for locals, so as the help maintain the viability of the Post Office and the shop.

There are lovely walks and nice pubs, in a really beautiful area. This is good for the village

We get a lot of walkers coming through – the Pilgrim's Trail. A little coffee shop / sandwich bar would be great for them

Signs to motorists to use Village Hall car park

Parking facilities – particularly in centre of Boughton

Welcome signage and leaflets / brochures for tourist use

We like seeing folk walking in groups through the countryside. They generally look after it and on occasions use the shops & pubs etc.

Yes – parking is important especially if we are to encourage enterprise along the Street.

Tourists bring jobs, and is untapped (relatively) though we do need more to offer to fully benefit

More parking – yes More signposts showing way to shops, hairdressers, school, rec village hall etc

More parking areas for Boughton

The excellent pubs in Boughton village are popular with many visitors to the area and the additional entertainment they offer should be encouraged. The parking at the pubs must be protected so visitors don't need to park in the Street

My pet hate, lack of parking everywhere

Development is generally a good idea but only if the infrastructure allows it and the locals are not negatively affected

The White Lion at Selling could be a good centre for walkers. This would help the pub to survive. Maybe an arrangement with a guided walkers company would help. We have much appreciated elsewhere organised by Sherpa Walking Tours. A Sherpa North Downs Way walk would be good

Parking still an issue – St, Paul’s area

More off road parking. Loos

It should be considered even though nobody ever wants more people, but it does bring business and revenue to the area, but definitely NOT more parking, how ugly is that! It would need careful management

More money needs to come into the areas but the roads and parking needs improving

More parking

We would certainly need more parking but it would help support other businesses eg Antiques, coffee shop. However, there might have to be some more attractions to draw tourists

Parking is an issue at Boughton and more visitors would certainly cause more traffic problems – parking at the Village Hall should be better signposted for visitors

There is a lot to offer of interest in the community

Greater use of Village Hall Car Park. Pay and Display

OK if more parking – suggestions of use of pub and Village Hall car parks, if available

So long as there is sufficient off road parking clearly signed

More car parks

A considered view of new tourism can bring money into the area without compromising the character

As with any of the development suggested parking and traffic through the village is the most important factor

Parking, speed bumps

More off street parking

This could be looked into as a way of bringing in more local jobs into the community

But this is a whole subject that needs a separate strategy / plan / development and how to maintain / promote

As suggested, more dedicated parking is essential and stricter enforcement of parking restrictions also

The village urgently needs a car park! Not just for tourists, but also for residents

Tourists would not want to visit the area because of parking and there is nothing pretty as you walk along The Street just dirt where never swept, the area struggles with buses and would have a severe problem with coaches

I would welcome visitors to the village if there were focal points for visitors eg tea room?

Would love to see a coffee shop or similar maybe I need to get my business head on!! Parking is an issue so any developments seriously need to consider this

One has to accept that if you have people visiting there is going to be a “knock-on” effect. Heigh Ho!

O.K. if more parking

More parking needed

Indicate parking, pubs, loos, shops etc for walkers and general visitors

More parking required

We seem to have lost Farming World which was a great attraction, but we do have Mount Ephraim. A farming attraction would be good to have in place

No

There won’t be anything worth tourists visiting if development continues any more

Too many people as it is

Not really sure tourists bring anything to the area

The traffic through to village (Boughton) is difficult as it is – maybe outskirts with easy access to A2

There is not enough off road parking is ridiculous to encourage more people with cars

Off road long term dedicated car park helpful, necessary but expensive (opportunity cost)

Village Hall site not obvious except for school pick ups

There is already only just enough parking for residents and their visitors (especially on the main street) therefore attracting additional tourists would be a concern

Nothing for tourists to see! Enough parking at Village Hall. Get rid of the bushes and rubbish around public toilet.

Get the school children helping in garden

We have to good plus new one, pubs and restaurants

There should be more provision for parking all the cars in the village as hard to get in or out at times due to volume of cars parked in the “Street”

Not Sure

Not sure what attractions there are in the village for tourists

Better signs for Boughton Church and Car Park

OK depending on the type of business and traffic that it would attract. Boughton High Street can be a nightmare when busy

Without more businesses and parking I don't see how villages could cope

Tourists do not bring anything into the village apart from litter!!!

Definitely more parking, off road and more accommodation

Parking would be vital. Need car park space for residents now – The Street is a nightmare

Every village should have a car park with security (paid for as per car by owners – yearly subs)

This may be worth doing, maybe if there is more parking Boughton Street could be pedestrian only!

Can be considered, but not if it entails much development eg don't want a street full of hotels

Depends where the attraction is or what it is. Could be places to stay would be good

We need more off road parking going through Boughton Village is like going on a race track and very stressful drivers not giving way etc

Tourists would come for walking etc which already happens so little need to develop with very limited parking

General

Improving the appearance of Boughton Street eg shop fronts and flowerpots

More parking. Better street layout (parking)

More parking stop people parking on double yellow lines and causing congestion
