

# Boughton & Dunkirk Neighbourhood Plan

## YOUR COMMUNITY – YOUR FUTURE

Q9

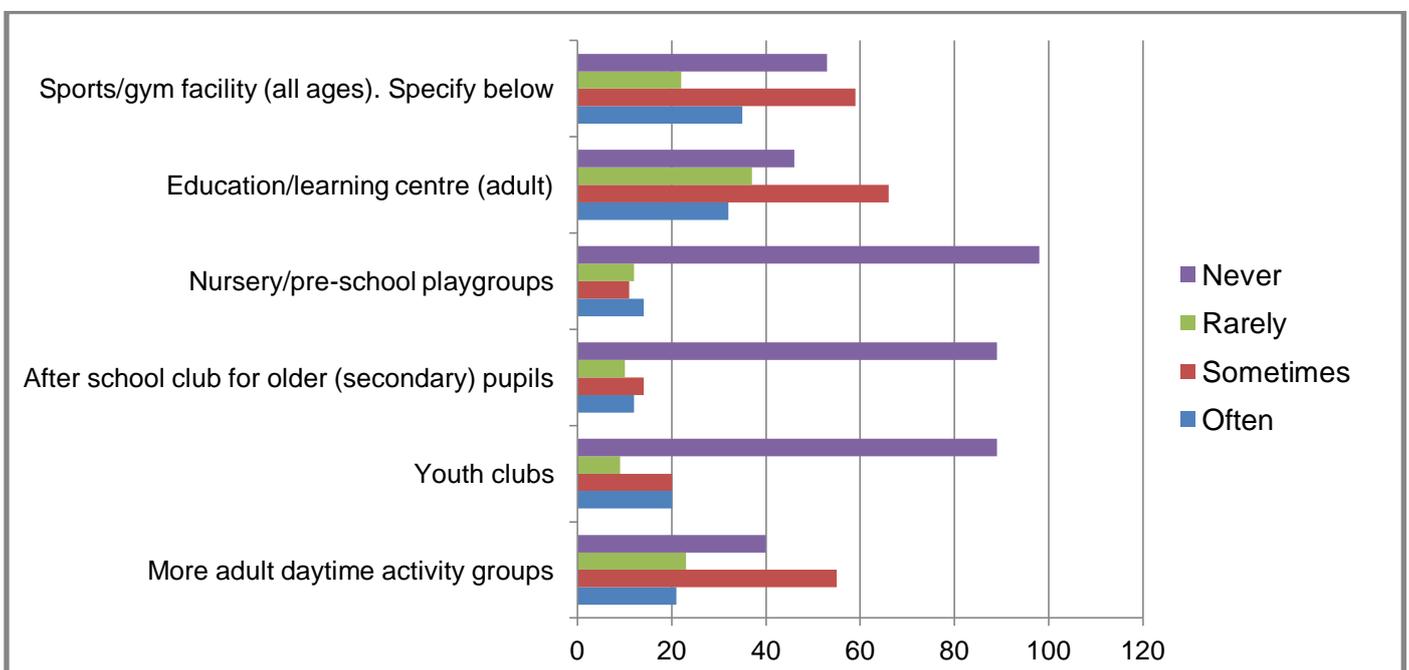

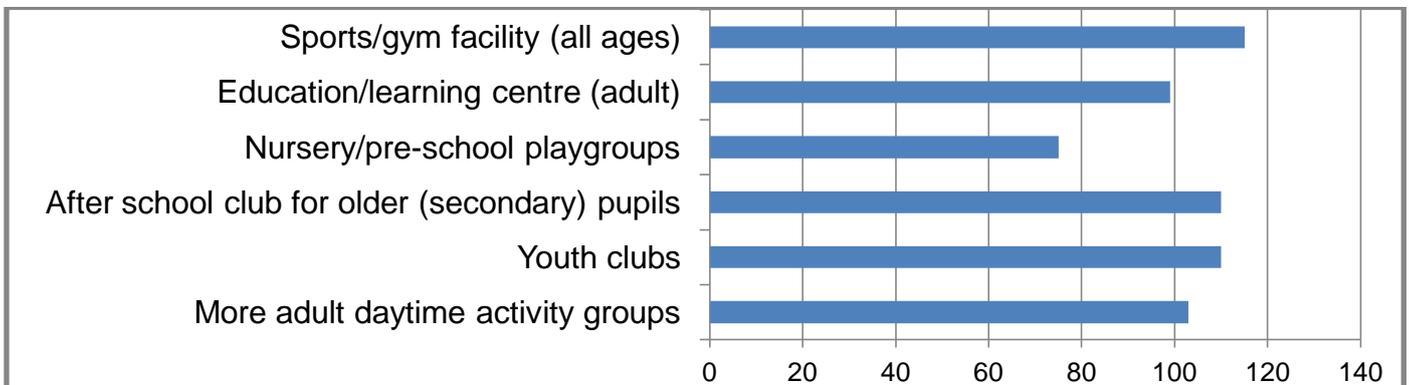

Which of the following would you wish to see, as an improvement of village facilities, and please tick the ones you are likely to use, indicating frequency. Please tick all that apply.

	Would like to see	Never	Rarely	Sometimes	Often
Sports/gym facility (all ages). Specify below	115	53	22	59	35
Education/learning centre (adult)	99	46	37	66	32
Nursery/pre-school playgroups	75	98	12	11	14
After school club for older (secondary) pupils	110	89	10	14	12
Youth clubs	110	89	9	20	20
More adult daytime activity groups	103	40	23	55	21

It should be noted that there were 42 'No' answers. Some were from the website, where 'No' was an option, some wrote 'None'. They are not relevant to the survey.

The interpretation of this question is very difficult. Some people ticked 'would like to see', as a village facility and then ticked 'Never' as to frequency, but it's still a valid need for the parishes. This is our own fault; the question tried to harvest too much information and should have been split into two or more questions. It does not obviate the validity, just makes it harder to interpret.

### Facilities people 'Would like to see'.

What other facilities would you like to see:

**Sports/gym facility (all ages). Specify below**

None

Outdoor gym – type seen in public parks

We have

Should include swimming pool and possibly hydrotherapy facilities

**Education/learning centre (adult)**

None

We have

**Nursery/pre-school playgroups**

Have 3 already

None

We have

Already have one

I'm too old! I have ticked "never" for the young people's facilities, but I think yheyu are essential for the village community

**After school club for older (secondary) pupils**

Have 1 already

None

We have

I have ticked "never" for the young people's facilities, but I think yheyu are essential for the village community

**Youth clubs**

Have 1 already

None

I'm too old, but there seems to be a need

We have

Ask the youth

I have ticked "never" for the young people's facilities, but I think yheyu are essential for the village community

**More adult daytime activity groups**

Have lots already

None

We have

Already have one

Already have one

**What other facilities would you like to see**

Tennis courts

More shops. Take away

Cycle parks. Pushchair friendly walks identified using public footpaths

We have all of the above

Tennis courts, cycle paths, wi, allotments

Community café / information centre / bookshop

Tennis courts please! And / or toddler paddling pool

Better 'holistic' wellness facilities eg osteopath, yoga, health pool, shop etc

Another doctor or chemist

Tennis Court

Cycle routes – dedicated

A better village shop – better variety and access to the shop. A tea-room or café or somewhere to meet with friends which isn't a pub. Library open longer hours. Swimming pool / soft play area

Take away ie Fish and Chip shop

General gym

Coffee shops for the elderly that don't go out at night and maybe a book club

Youth Centre

A play area for babies and toddlers and children in Dunkirk village (Boughton is too far to walk) with a small green area for ball games, picnics etc

A tennis court, mini golf, COFFEE SHOP!

Anything to help school ages

Coffee Shop

Probably enough provision

Most houses have gardens, but allotments and social gathering

Night classes. Sports / swimming

Children's play park with swings etc

Badminton Court in the area

Swimming Pool – for use of school and residents

I've always thought it would be nice to include sports/gym/swimming pool in association with Boughton Golf Course

We've had the park refurbished – lovely. How about outside gym equipment for adults?

Would like to see more for the youth of the village. They are currently under served

Maybe more sports in taking place in the Village Hall

### **General**

It won't happen, believe me! See comment on local shops etc that finished in 1970's – 1980's

Improvements to the village shop – to include a deli and maybe a small café. Fresh fruit and veg / meat etc.

I think facilities are provided very well in the Boughton and Dunkirk Village Halls

All of the above would like to see more provision for young people generally, pre-school, after school and youth club

Facilities for elderly people who will be an increasing proportion of the village in the future

Outside adult gym equipment at the "Rec"

Would like to see St. Barnabas used more for Bring and Buy mornings, bric-a-brac sales and more, clothes sales etc

Better BMX track for older boys

More dog poo bins & litter bins in the streets. There is too much litter in both villages. DIRTY. FILTHY VILLAGES

Hard Tennis Court

5 a side football surface                      Keep fit trail

The village has no after school care!

Would like to see a café / bakery which would be a social amenity as well as providing a needed service to our community and would attract visitors and tourism

Maybe computer area for people to use, with someone to help the needy

As an OAP some of these activities are more for the youth

Maintain public toilets in Boughton. You usually do, for which many thanks

Cash point

Everyone needs to have a choice of things to do

Even though I am not in the catchment group and would therefore not use the facilities, I think any village would like these facilities to be available. They could be in the village hall or school ie none of them require a new building.

Weightwatchers + walking groups + computer training

Re gym facilities – outside, low maintenance gym facilities can be provided as part of the sports field provision. This would work well

I believe that all these things would help if there are to be new homes and more people to the area.

Increased opening and use of library facilities for study for ALL ages, computer, internet access, University of the Third Age, Higher Education Outreach facilities – OU etc

Help and advice on growing own veg, fruit and help with saving energy etc (practical help, not just advice)

Any additional facilities, like all of the above should be welcomed as improvements but I would like to see them? In general I'm neutral

The reason I am against most of these is that it starts with good intent and then they are degenerate because of cost cutting by the Public Body. So therefore best not to start. Youth outlets should be organised at school

More central and larger branch library facility (!?)

Better use of school premises. There are already 3 nurseries

After the top one none of these apply to me. I am a full time working adult with no children. Not sure the village really needs a public toilet though

Disabled access to St. Barnabas so all the activities these can be used by the very people who need to get out but can't at present eg Big Bite lunch for pensioners

As a pensioner I would welcome coach trips out sometimes. I do not drive a car

Most of these facilities are already available here or a short bus ride away. I think that those who do not attend group activities probably wouldn't do so even if they were nearby. There are plans under discussion for multi-purpose tennis / football / basketball facility

Facilities for older children would need a lot of looking into and it up to them to decide what is lacking in the area

The 3 halls are sufficient if properly used and managed. Also have scout hall. Need to keep both library and mobile library

Maintain existing library

I am too old to use any of these but most are good for the general public

Adding these will reduce the feeling of being a village. There are existing gyms and school clubs where they are best placed to be made full use of them

Young people are short changed in this village. More clubs for them!

Holiday clubs for pre-school through to secondary school

Most of the above exist in some form or another

Well maintained footpaths / cycle oaths / bridleways

There appears to be sufficient nursery provision within the parishes. As for the other items I have not seen a need for them myself, but realise other people may be more cognoscent of need than I am. Young people always need more things to do, but it must be the things they want themselves. An old fashioned view of a youth club is not going to appeal to the youth of today
